About Maxtra Technologies

Maxtra Technologies is a leading IT service provider company in India. It is well known for providing IT Software and Development solution with Agile, Waterfall & Iterative methodology. It is recognized by the IT stakeholders, as a premier mobile app development service provider, that can build the perfect mobile application for any business. With a culmination of cutting-edge technology and advanced development practices, the Company has developed and deployed hundreds of applications across business verticals and has consistently maintained a high success rate for 15+ years and counting.

Maxtra Technologies is a leading IT service provider company providing its services worldwide. We take pride in deploying hundreds of applications across diverse business verticals. Based on knowledge and market experience, we have maintained a high success rate for 15 + years. Our esteemed organization was the recognized partner for Business Connect around the world on March 21, 2020. We also received recognition as a recognized partner for Business Today in March 2021. Recently, we have also again received the status of recognized partner for Business Connect in September 2023. Our ability to render iOS & Android development solutions, blockchain solutions and direct selling software solutions are highly appreciated by our clients.

We also pride ourselves on our after-sales client care including our guarantees, staff training and technical support.

BENEFITS

Benefits With Maxtra

It is a challenge to keep track of emerging technology and deploy it effectively to fuel your growth. Outsourcing helps you to manage this challenge. Maxtra is an ideal partner who can help you meet this evergrowing challenge of integrating technology with your business.

By Outsourcing Your IT Requirements to Maxtra

Access to Expertise

Maxtra has accumulated considerable expertise in different technologies and business domains. Our experience ranges from web application programming to development and integration of complex mobile or stand alone enterprise system.

High Skilled Team

maxtra has a team of 150+ IT specialists with wide knowledge and extensive experience. Our effective hiring strategy, internal trainings, links with leading technical universities and proper motivation practices enables us to hire and retain the best-of-breed IT professional.

Security of intellectual Property

At Maxtra we take comprehensive measures to secure the clients confidential information. We have a set of policies and procedures to protect your business sensitive information and software artifacts (sources codes, specification, etc.).

Seamless Communication

maxtra realizes the vital importance of effective communication for outsourcing projects. We aim to create and maintain a productive and secure communication flow.

SAVE UPTO 45%
IN OVERALL COST

Engagement

Maxtra engagement specialists customize the engagement model to work around the client enterprise specifications from business goals to project management and HR practices. Maxtra offers different engagement models to meet global clients diverse needs.

Fixed Time/Fixed cost Project Mode

Maxtra offers customers a fixed time/fixed price model when the scope and specifications of the project are reasonably clear. Under this low risk model we work with clients to define expected deliverables and timelines to determine a mutually agreed fixed price.

Our refined process guarantees reliability, predictability and optimized performance of the projects and assures on-time delivery.

Dedicated Teams Model (DTM)

Dedicated teams model (DTM) is an excellent solution if you need a complete control over human and technical resources involved into the development process. DTM features a high level of transparency, security, flexibility, and scalability. All infrastructure and personnel are at your dedicated service as long as you need them for a fixed monthly fee.

DTM makes the development process more explicit and manageable and ensures a higher resources efficiency. Dedicated teams operates as an extension of the customer's development center. In this model, maxtra project managers, equipment and infrastructure based on client requirements

Benefits of our Dedicated Teams Model (DTM)

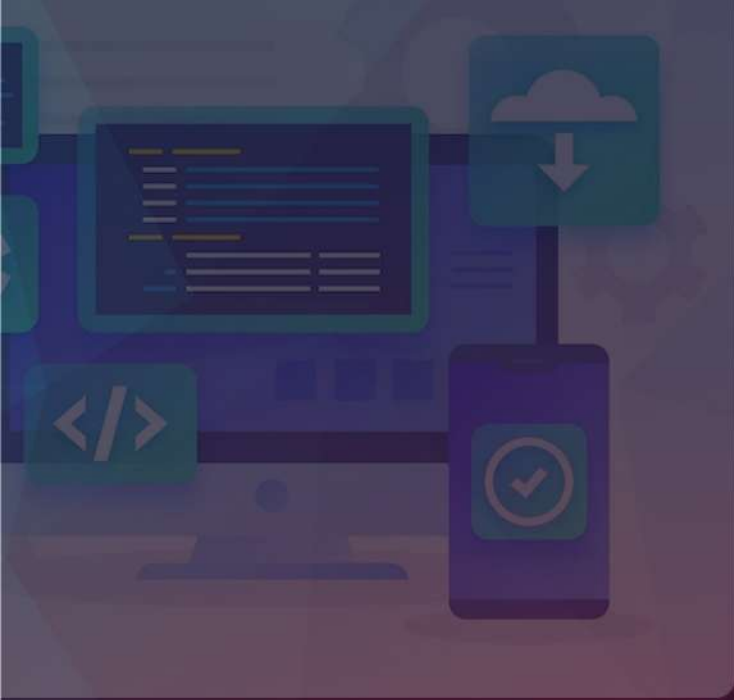

Maxtra has a vast pool of multi-disciplinary resources to organize a tailored DTM engagement for any type of software or mobile application project requirements. Our dedicated teams model (DTM) offers clients an easy & cost effective solution for engaging different kinds of technical groups & resources

- ➔ *Access to a wide-range of expert IT resources with diverse skills across all platforms*
- ➔ *Ready to use IT infrastructure with best facilities that includes staging server project management system SVN and network support.*
- ➔ *Complete control over team structure (addition / replacement / withdrawal of resources)*
- ➔ *Transparent billing process and comprehensive reporting procedures.*
- ➔ *Complete control over your project flow including schedules deliverables etc. Your project gets developed in an 'Agile Environment' which means you see your project being developed in real-time.*
